

**READY TO
BRING
INNOVATION
TO LIFE?**

Procter & Gamble Europe Research & Development Internship 2015

Would you like to gain work experience in the challenging environment of R&D in a globally operating consumer goods company?

We offer internships/placements in our European Research Centres, mainly in the summer break, for a period of 10-12 weeks (and longer). On top of a great learning experience, participants will receive an attractive remuneration package.

We are looking for brilliant and highly motivated students of Science and/or Engineering, who are in their penultimate year of study, who have strong technical skills and a good command of the English language.

If you're looking for scientific challenges and a chance to be innovative, P&G is the right place for you!
